- Saturn Mars and Moon are in Shravana nakshatra, Sun and Mercury in Uttarashadha nakshatra, Jupiter in Chitra nakshatra and Venus in Dhanishta nakshatra.
- There was a solar eclipse on 2 I /8/1933 in 5/11 axis. At that time Saturn was retrograde and Mars were in square to each other. Mars and Rahu were together in navamsha opposing Sun and Moon. It was also a new Moon day.
- Capricorn Is traditionally used by Varahamihra as lagna of India.
- Jupiter and Mercury are Interchanging houses. Jupiter is at the end of rashi and Venus is in the beginning.
- Note the closeness of degrees of Saturn and Mars and Mercury and Jupiter.
- Concentration of planets in the beginning of movable signs.
- Venus closer to 0.4 AU from Earth.

CHART NO 2: TANGSHAN, CHINA - 28/7/1976

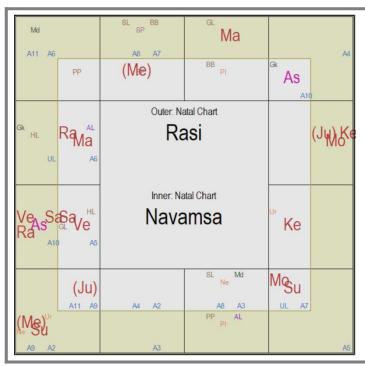

- Moon, Mercury and Venus were in Ashlesha nakshatra.
- In navamsha, Sun is afflicted by exalted Saturn. Mars is in the 8th and Saturn and Jupiter are in kendras from each other. Saturn is squaring Moon and 9th lord Mars is in the eighth.
- There are five planets aspecting 8th house of destruction.
- Jupiter and Mars squaring each other.
- Sun is afflicted by Saturn. Moon is in the grip of Rahu and 8th house is aspected by Saturn.
- The destruction of property is clearly shown with the 4th lord Jupiter in the 6th aspected by violent Mars.
- Note the closeness of Moon and Venus.
- On new Moon day, Moon was in Punarvasu nakshatra and on the day of the earthquake it entered Ashlesha nakshatra Mercury - establishing connection of Mercury and Moon in earthquakes.

- Rahu and Ketu was in Taurus/Scorpio axis. Jupiter was conjunct Ketu.
- Mars was afflicting both Jupiter and Moon and was squaring Rahu.
- Saturn afflicting both Sun and Mercury.
- Jupiter almost at Maximum declination.
- Venus as close as 0.6436 AU from Earth.
- Nodes at Taurus/ Scorpio axis along with heavy planet Jupiter which is at maximum declination.

- There is conjunction of Saturn with Rahu and Venus.
- Nodes in the 5/11 axis.
- Rahu with opposition of Jupiter.
- Mars is afflicting Moon who is in 7th from traditional lagna Capricorn of Afghanistan and Pakistan.
- There was an annular solar eclipse on I5th and 16th January 1991 in Capricorn (rashi of India and Pakistan).
- There were three planets Saturn, Rahu and Venus In Capricorn squared by retrograde Jupiter from Cancer.
- Mars at maximum declination.
- Mars closer to Earth at a distance of 0.6 AU.

- This is typical case of Saturn Ketu conjunction with the aspect of Mars leading to dire consequences.
- Rahu is aspecting Jupiter who Is deblitated.
- Sun is in kendra from Jupiter.
- Sun is 8th lord from Capricorn lagna with 6th lord Mercury in the 4th house of earthquakes.
- Mars is in the 8th house of destruction.
- Moon is in the 6th squared by Saturn.
- Venus at maximum declination from Earth.
- Mars at maximum declination from Earth.

CHART NO 6: SAKHALAND, RUSSIA – 28/5/1999

- Moon is terribly afflicted in airy rashi by Mars, Saturn and Jupiter.
- Sun as 7th lord is with Mercury 8th lord and has the malefic aspect of Mars.
- Saturn is aspecting Venus. And thus all he planets have Malefic aspects.
- Distance of Venus to Earth is 0.82 AU which is almost the closest point reached by it at all time.
- Distance of Mars to Earth is 0.63 AU which is almost the closest point reached by it at all time.
- Nodes at 5/11 axis to the Kalapurusha Chart.
- Mars Retrograde and Vargottama aspecting its own house Aries.

- A badly afflicted 4/10 axis. Mars opposition against Rahu/ Saturn.
- Rahu/Saturn conjunction aspecting 4th house.
- Moon squared by Saturn, Rahu.
- Saturn is at highest declination with Earth.
- Venus is at nearest point with Earth at 0.74 AU from Earth.
- Saturn is also at nearest point with Earth at 8.22 AU from Earth.
- Rahu and Ketu at the Taurus/Scorpio axis.
- Saturn is afflicting Taurus Rashi along with Saturn.
- Rahu and Saturn malefic aspects on Venus and Mars in Scorpio Rashi which is the 8th house of the Kalapurusha Chart.
